Meeting the M&V Needs of the Federal Government Customer

Dale Sartor, PE
Lawrence Berkeley National Laboratory

FEMP M&V Tools and Resources

1. Introduction to M&V for Super ESPC Projects
2. **M&V CD** (FEMP and IPMVP documents)
3. Measurement and Verification Documents Website
4. FEMP Guide 2.2 and **FEMP Option A Guide**
5. M&V Resources and Training Opportunities
6. **Responsibility Matrix**
 - Explains the key parameters that affect energy savings, and provides a framework for assigning responsibilities to either agencies or ESCOs
 - Fosters discussion of which party is responsible for which parameter
 - Now part of DOE contract

August 8-11, 2004 www.energy2004.ee.doe.gov

FEMP M&V Tools and Resources, cont.

7. M&V Planning Tool
 - Overview of process for selecting M&V approach
8. M&V Review Checklist(s)
9. M&V Plan Outline
10. Post-Installation M&V Report Outline
11. Annual Report Outline
 - Standard format for verification of savings guarantees and verification of O&M, which can affect savings persistence
12. Retro-Commissioning with ESPC
 - Intro Guide and Example Scope of Work

August 8-11, 2004 www.energy2004.ee.doe.gov

Measurement & Verification Documents

See printout of website (<http://ateam.lbl.gov/mv/>) & CD

- ❖ Key M&V Documents
 - M&V guidelines, training curriculum, finished WG products
- ❖ Draft M&V Documents from Working Groups
 - Draft products
- ❖ Background Documents
 - Related items on topics such as commissioning, baselines, stipulations
- ❖ Links
 - FEMP Super ESPC home page, Defense Energy Support Center, Dept. of Navy Performance Contracting, and Air Force (AFCEA)

August 8-11, 2004 www.energy2004.ee.doe.gov

The Federal M&V Team

A Proactive QA and Improvement Team

- Supports Federal ESPC Quality Assurance and Improvement effort
- Includes Agencies with major ESPC procurements
- Includes project facilitators and ESCO representatives
- Working Groups established to tackle specific issues and develop tools
- M&V Summits held to improve M&V across the entire federal sector

August 8-11, 2004 www.energy2004.ee.doe.gov

Team Objectives

- ❖ Organize and coordinate efforts to improve and standardize M&V across the federal sector
- ❖ Collaboratively engage federal agencies, project facilitators, ESCOs, and experts
- ❖ Lead role in the development of standard M&V Tools
- ❖ Support and supplement standard protocols (IPMVP, FEMP M&V Guide)
- ❖ Advance the state of the art in M&V

August 8-11, 2004 www.energy2004.ee.doe.gov

Working Groups Have Completed Deliverables

- ❖ M&V Planning
 - M&V Planning Tool
- ❖ M&V Training
 - M&V course
- ❖ Retro-Commissioning
 - Introduction and example SOW
- ❖ Plan and Reporting
 - M&V plan, Annual Report, and Post-installation Report Outlines
- ❖ Project Documentation
 - Draft project Documentation Structure

August 8-11, 2004 www.energy2004.ee.doe.gov

Active Working Groups:

- ❖ Commissioning
- ❖ M&V Plan & Reporting Integration
- ❖ Advanced Metering
- ❖ O&M Reporting
- ❖ Performance Period Administration
